

Appendix Variables - Final Dataset (English)

VARIABLE NAME	VARIABLE TYPE	DESCRIPTION
tourney_id	Text	Tournament identifier
tourney_name	Text	Tournament name
surface	Text	Type of surface
draw_size	Integer	Number of participants in the tournament
tourney_level	Text	Type of tournament
tourney_date	Date	Tournament date
match_num	Integer	Match identifier number (can be arbitrary)
score	Text	Result of each set
best_of	Integer	Number of sets in the match
round	Text	Tournament round
minutes	Integer	Match duration in minutes
id	Integer	Player identifier
name	Text	Player's name
hand	Text	Player's dominant hand
ht	Integer	Player's height in cm
ioc	Text	Player's country code
age	Integer	Player's age
ace	Integer	Number of aces by the player
df	Integer	Number of double faults by the player
svpt	Integer	Number of serve points by the player
1stIn	Integer	Number of valid first serves by the player
1stWon	Integer	Number of points won with the first serve by the player
2ndWon	Integer	Number of points won with the second serve by the player
SvGms	Integer	Number of service games by the player
bpSaved	Integer	Number of break points saved by the player
bpFaced	Integer	Number of break points faced by the player
rank	Integer	Player's ranking
rank_points	Integer	Player's ranking points
player_type	Text	Indicates whether the player is the winner or loser of the match
Year	Integer	Year of the match
Month	Integer	Month of the match
